

QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR TEXTILE SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualifications Pack – Knitting Machine Operator - Flat Bed Knitting

SECTOR: TEXTILE

SUB-SECTOR: KNITTING

OCCUPATION: KNITTING

REFERENCE ID: TSC/ Q 4102

ALIGNED TO: NCO-2004 /8262.30

Brief Job Description: A Flat Knitting operator is responsible to operate industrial knitting machines; repair yarn-related faults at the knitting head and fabric press-offs; operate process machines ancillary to the knitting production; identify and sort wastes; and demonstrate knowledge of yarn-related faults in knitted fabrics. This job requires the individual to have thorough knowledge in process flow and material flow in a knitting machine for fabric production and should know the important functions and operations of knitting machines.

Personal Attributes: A knitting operator should have good eyesight, hand-eye-leg coordination, motor skills and vision. He/she should also have good interpersonal skills.

Table 1: Glossary of Key Terms

Definitions	Keywords /Terms	Description
	Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
	Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
	Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
	Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
	Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
	Sub-functions	Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function.
	Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
	Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
	Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
	National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
	Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
	Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
	Unit Code	Unit Code is a unique identifier for an OS unit, which can be denoted with either an 'O' or an 'N'.
	Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.

Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.

Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company/ organization and its processes)	<p>You need to know and understand:</p> <p>KA1. personal hygiene and duty of care</p> <p>KA2. safe working practices and organisational standard operating procedures</p> <p>KA3. limits of your own responsibility</p> <p>KA4. ways of resolving problems within the work area</p> <p>KA5. the production process and the specific work activities that relate to the whole process</p> <p>KA6. the importance of effective communication with supervisors</p> <p>KA7. the lines of communication, authority and reporting procedures</p> <p>KA8. the organisation's rules, codes and guidelines (including timekeeping)</p> <p>KA9. the company's quality standards</p> <p>KA10. the importance of complying with written instructions</p> <p>KA11. equipment operating procedures / supervisor's instructions</p>
B. Technical Knowledge	<p>You need to know and understand:</p> <p>KB1. work instructions and specifications and interpret them accurately</p> <p>KB2. relation between work role and the overall manufacturing process</p>

TSC/ N9001

Maintaining work area, tools and machine

	<p>KB3. hazards likely to be encountered when conducting routine maintenance</p> <p>KB4. the importance of taking action when problems are identified</p> <p>KB5. different ways of minimising waste</p> <p>KB6. the importance of running maintenance and regular cleaning</p> <p>KB7. effects of contamination on products i.e. machine oil, dirt, foreign materials</p> <p>KB8. common faults with equipment and the method to rectify</p> <p>KB9. maintenance procedures</p> <p>KB10. different types of cleaning equipment and substances and their use</p> <p>KB11. safe working practices for cleaning and the method of carrying them out</p>
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	You need to know and understand how to:
	SA1. Write clear and short sentences
	Reading Skills
	You need to know and understand how to:
	SA2. comprehend written instructions SA3. read any application sent by other colleagues
B. Professional Skills	Oral Communication (Listening and Speaking skills)
	You need to know and understand how to:
	SA4. Communicate effectively in simple language
	SA5. communicate with supervisor appropriately
	SA6. talk to others to convey information effectively
	Problem Solving
	You need to know and understand how to:
	SB1. identify the real reason of problem faced
	SB2. apply problem-solving approaches in different situations
	SB3. refer anomalies to the supervisor
	SB4. seek clarification on problems from others
	Attention to Detail
	You need to know and understand how to:
	SB5. apply good attention to detail
	SB6. check your work is complete and free from errors
	SB7. make sure every kind of communication is error free
	You need to know and understand :
	SB8. communicate effectively
	SB9. apply leadership skills wherever required
	SB10. take initiative at the right place
	SB11. understand the requirement to be creative

TSC/ N9003

Maintain health, safety and security at work place

National Occupational Standard

Overview

This unit is about maintaining health, safety, and security standards at workplace.

TSC/ N9003

Maintain health, safety and security at work place

Unit Code	TSC/ N9003
Unit Title (Task)	Maintain health, safety and security at work place
Description	This unit provides performance criteria, knowledge & understanding and skills & abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.
Scope	This unit/task covers the following: <ul style="list-style-type: none"> comply with health, safety and security requirements at work recognizing the hazards planning the safety techniques implementing the programs
Performance Criteria (PC) w.r.t. the Scope	
Elements	Performance Criteria
Comply with health, Safety and security requirements at work	<p>To be competent, operator must be able to:</p> <p>PC1. comply with health and safety related instructions applicable to the workplace</p> <p>PC2. use and maintain personal protective equipment such as “ear plug”, “ nose mask “, “ head cap” etc., as per protocol</p> <p>PC3. carry out own activities in line with approved guidelines and procedures</p> <p>PC4. maintain a healthy lifestyle and guard against dependency on intoxicants</p> <p>PC5. follow environment management system related procedures</p> <p>PC6. identify and correct (if possible) malfunctions in machinery and equipment</p> <p>PC7. report any service malfunctions that cannot be rectified</p> <p>PC8. store materials and equipment in line with organisational requirements</p> <p>PC9. safely handle and remove waste</p> <p>PC10. minimize health and safety risks to self and others due to own actions</p> <p>PC11. seek clarifications, from supervisors or other authorized personnel in case of perceived risks</p> <p>PC12. monitor the workplace and work processes for potential risks and threat</p> <p>PC13. carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned</p> <p>PC14. report hazards and potential risks/ threats to supervisors or other authorized personnel</p> <p>PC15. participate in mock drills/ evacuation procedures organized at the workplace</p> <p>PC16. undertake first aid, fire-fighting and emergency response training, if asked to do so</p> <p>PC17. take action based on instructions in the event of fire, emergencies or accidents</p> <p>PC18. follow organisation procedures for shutdown and evacuation when required</p>
Recognizing the hazards	<p>To be competent, you must be able to:</p> <p>PC19. identify different kinds of possible hazards (environmental, personal, ergonomic, chemical) of the industry</p> <p>PC20. recognise other possible security issues existing in the workplace</p>
Planning the safety	PC21. recognise different measures to curb the hazards

TSC/ N9003

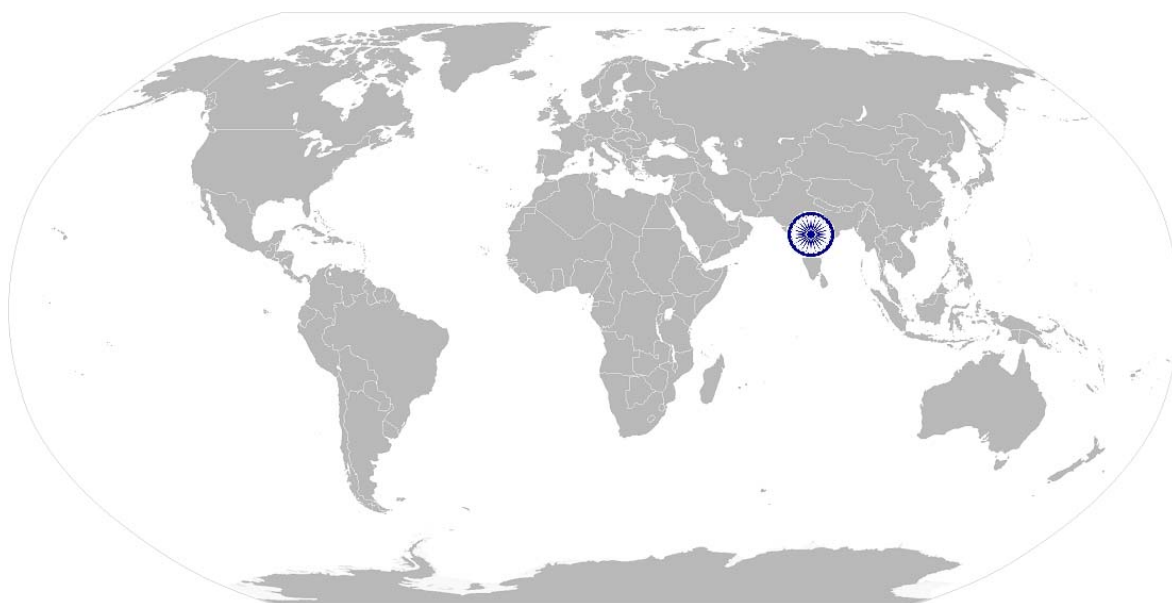

Maintain health, safety and security at work place

techniques	
Implementing the programs	PC22. communicate the safety plan to everyone PC23. attach disciplinary rules with the implementation
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company/ organization and its processes)	<p>You need to know and understand:</p> <ul style="list-style-type: none"> KA1. standard operating procedures (SOP) and regulations in a textile mill KA2. safe working practices to be adopted in textile mill KA3. quality systems and other processes practiced in the textile mill KA4. health and safety related practices applicable at the workplace KA5. potential hazards, risks and threats based on nature of operations KA6. organizational procedures for safe handling of equipment and machine operations KA7. potential risks due to own actions and methods to minimize these KA8. environmental management system related procedures at the workplace KA9. layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points KA10. potential accidents and emergencies and response to these scenarios KA11. reporting protocol and documentation required KA12. details of personnel trained in first aid, fire-fighting and emergency response KA13. actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
B. Technical Knowledge	<p>You need to know and understand:</p> <ul style="list-style-type: none"> KB1. occupational health and safety risks and methods KB2. personal protective equipment and method of use KB3. identification, handling and storage of hazardous substances KB4. proper disposal system for waste and by-products KB5. signage related to health and safety and their meaning KB6. importance of sound health, hygiene and good habits KB7. ill-effects of alcohol, tobacco and drugs
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	You need to know and understand how to:
	SA1. write clear and short sentences
	Reading Skills
	SA2. read and understand the company instructions SA3. read and understand work instructions SA4. read and understand the safety guidelines
	Oral Communication (Listening and Speaking skills)
	SA1. listen to others attentively SA2. respond to emergencies, accidents or fire at the workplace SA3. evacuate the premises and help others in need while doing so SA4. the value of physical fitness, personal hygiene and good habits SA5. talk with others politely
B. Professional Skills	Decision Making
	SB1. identify correct safety measure for particular hazard

TSC/ N9003

Maintain health, safety and security at work place

	SB2. make required safety plans as and when required
	SB3. raise alarm in case of emergency
	Analytical Thinking
	SB4. know the use of correct safety measure whenever required
	Attention to Detail
	SB5. be attentive to details
	SB6. be careful to avoid occurrence of hazards
	You need to know and understand :
	SB7. maintenance of neatness at work
	SB8. procedure for reporting unwanted behavior

Assessment Criteria

Job Role: Knitting Machine Operator - Flat Knitting Qualification Pack: Knitting Machine Operator - Flat Knitting Sector Skill Council: Textile Sector Skill Council						
Guidelines for assessment :- 1. Criteria for assessment for each qualification pack will be created by the Sector Skill Council. Each performance criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for theory & skill practical for each PC. 2. The assessment for the theory part will be based on knowledge bank of question created by the SSC. 3. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre (as per assessment criteria below). 4. To pass the qualification pack, every trainee should score a minimum of 80%.						
National Occupational Standards (NOS)	Performance Criteria (PC)	Total Marks	Out Of	Marks Allocation		
				Theory	Skills Practical	Viva
1. TSC/N4105 (Taking charge of shift and handing over shift to Knitting Machine Operator-Flat Bed Knitting)	PC1. reach atleast 10 - 15 minutes early to the work place	50	3	1	1	1
	PC2. bring the necessary operational tools to the department		3	1	1	1
	PC3. meet the previous shift operator and collect the information regarding the count, process, issues faced in quality& current fabric production followed in the knitting department.		4	1	2	1
	PC4. be updated on information regarding the current order such as it is, for which company and other details.		3	1	1	1
	PC5. ensure proper functioning of machine and problems if any should be reported to		4	1	2	1

Assessment Criteria

	the supervisor and maintenance incharge.					
	PC6. understand and be informed about the current order quantity and balance quantity.		3	1	1	1
	PC7. be updated on the new order fabric details and quantity.		3	1	1	1
	PC8. clean the machine and department before handing over the shift.		4	1	2	1
	PC9. hand over the necessary operational tools if any.		4	1	2	1
	PC10. meet the next shift operator and give the information regarding the count, GSM, loop length, process, issues faced in quality, and current fabric production followed in the knitting department.		4	1	2	1
	PC11. note the production details for the current shift		4	1	2	1
	PC12. ensure proper functioning of the machine and problems if any, should be reported to the supervisor and maintenance incharge.		4	1	2	1
	PC13. give details to the next shift operator about the current order quality, quantity and balance quantity.		4	1	2	1
	PC14. convey information regarding new order fabric details and quantity.		3	1	1	1
	Total		50	14	22	14
	Weightage			28%	44%	28%

Assessment Criteria

		%				
2. TSC/N4106 (Operate a flat knitting machine)	PC1. start the machine	200	4	1	2	1
	PC2. operate the control switches for starting and stopping the knitting machine		4	1	2	1
	PC3. follow the signal lamps used in machines		5	1	2	2
	PC4. ensure proper functioning of the knitting machine by verifying the display panel		4	1	2	1
	PC5. ensure the machines are operated in accordance with workplace procedures.		4	1	2	1
	PC6. ensure the yarns are run through correct yarn-paths at operating tensions according to machine-builder's instructions		6	2	2	2
	PC7. ensure the production is monitored for faults, and variations notified, in accordance with workplace procedures.		6	1	3	2
	PC8. ensure the machines are monitored for continuous functioning of all systems, and variations notified, in accordance with workplace procedures.		5	1	2	2
	PC9. ensure the production is removed from machines in accordance with workplace procedures.		5	1	2	2
	PC10. ensure the documentation of production is completed in accordance with workplace procedures.		6	2	2	2
	PC11. ensure the machines are lubricated as directed		5	1	2	2

Assessment Criteria

	in the machine manual					
	PC12. ensure the yarn paths, eyelets, knitting heads, machines, and working environment are clean and free of contamination.		6	2	2	2
	PC13. check whether the yarns are properly fed in the knitting machine		8	2	4	2
	PC14. knot the yarn in case of breakage		4	1	2	1
	PC15. doff the full fabric roll		5	1	2	2
	PC16. view the display panel or signal and identify the reasons for machine stoppages if any		8	2	4	2
	PC17. ensure the knitting machine is running in the set speed by viewing the display panel		6	2	2	2
	PC18. ensure the working area is clean		7	2	3	2
	PC19. ensure proper functioning of machine		3	1	1	1
	PC20. rethread incorrectly-positioned yarns in accordance with workplace procedures.		5	1	2	2
	PC21. join broken yarns or new ends		5	1	2	2
	PC22. fix fabric press-offs		3	1	1	1
	PC23. reset machines for restart		4	1	2	1
	PC24. Arrange after fault correction, style changes, and pattern changes		5	1	2	2
	PC25. ensure the feeder is working properly and yarn is uniformly fed into the feeder.		4	1	2	1
	PC26. support the fitter for carrying out maintenance activities		4	1	2	1
	PC27. ensure the gsm, loop		4	1	2	1

Assessment Criteria

	length variation is within the limits and if it's abnormal report it to superiors.					
	PC28. inform the supervisor and maintenance incharge in case of a jam		4	1	2	1
	PC29.support the fitter during minor breakdown		4	1	2	1
	PC30.ancillary process machines are operated in accordance with machine-builder's instructions		4	1	2	1
	PC31.safety precautions that comply with workplace procedures are observed.		5	1	2	2
	PC32.the working environment is kept clean and free of contamination		4	1	2	1
	PC33.ensure proper material handling of yarn, cone and empty cone		4	1	2	1
	PC34.ensure using proper material handling of tools and equipments		4	1	2	1
	PC35. ensure safety while operating the machine.		4	1	2	1
	PC36.using of safety gadgets like caps, masks,ear plugs and shoes and verifying the safety stop motions		3	1	1	1
	PC37.ensure the fabric produced is free from outside damages		3	1	1	1
	PC38.collect usable waste to be weighed at shift end and to be placed in the specified area		3	1	1	1
	PC39.inform superiors immediately, if any break down or fault in the machine is noticed		3	1	1	1
	PC40.ensure the proper functioning of signal		3	1	1	1

Assessment Criteria

	lamps					
	PC41. ensure that machine is always working properly, if any deviations inform superiors immediately		7	2	3	2
	PC42. identify yarn wastes by fibre content and sorted according to workplace procedures		3	1	1	1
	PC43. identify fabric wastes are identified and sorted according to workplace procedures.		3	1	1	1
	PC44. provide all relevant information of the current working process to the next shift operator before relieving		4	1	2	1
	Total		200	52	86	62
		Weightage %		26%	43%	31%
3 . TSC/N4107 (Piecing the yarn and doffing the fabric roll in the knitting machine)	PC1. identity the machine stoppage by viewing the signal lamps and in display panel	100	3	1	1	1
	PC2. identify the reasons for yarn breakage		4	1	2	1
	PC3. ensure minimum time is taken for attending the yarn breakage in carding department		4	1	2	1
	PC4. unwind the yarn from the cone		3	1	1	1
	PC5. ensure proper piecing		3	1	1	1
	PC6. draw the yarn through the guide, guide rollers and pass it through the stop motion into the feeder in the delivery zone		5	1	2	2
	PC7. ensure proper functioning of knitting machine post piecing		5	1	2	2
	PC8. collect the waste		3	1	1	1

Assessment Criteria

	collected during piecing and store the waste at respective waste box					
	PC9. segregate the reusable wastes and weigh and record them in a register		3	1	1	1
	PC10. ensure standard piecing procedure is adopted and quality of piecing is as per standards		4	1	2	1
	PC11. ensure minimum time is taken for piecing the yarn.		4	1	2	1
	PC12. ensure safety while carrying out piecing activity		3	1	1	1
	PC13. verify the quality of piecing done in the yarn		3	1	1	1
	PC14. ensure yarn tension in the creeling section is appropriate		3	1	1	1
	PC15. ensure proper functioning of the machine		4	1	2	1
	PC16. collect the empty cones from creel and replace with a full cone		4	1	2	1
	PC17. ensure whether the fabric roll is ready for doffing by viewing the details in display panel or by manual		5	1	2	2
	PC18. keep the empty fabric roller ready for replacement		5	1	2	2
	PC19. to keep the empty fabric roll near the knitting machine in manual doffing		5	1	2	2
	PC20. to doff the full fabric roll in case of manual doffing		4	1	2	1
	PC21. ensure proper doffing procedure is followed		4	1	2	1
	PC22. ensure doffing is carried		4	1	2	1

Assessment Criteria

	out properly					
	PC23. move the fabric roll to the storage area		3	1	1	1
	PC24. ensure the knitting machine is properly restarted after doffing		3	1	1	1
	PC25. ensure proper functioning of knitting machine post doffing		3	1	1	1
	PC26. ensure proper material handling of yarn, cone and empty cone		3	1	1	1
	PC27. ensure proper material handling of tools and equipments		3	1	1	1
	Total		100	27	41	32
		Weightage %		27%	41%	32%
4 . TSC/N4108 (Repair yarn related faults in Flat Bed Knitting)	PC1. rethread incorrectly-positioned yarns in accordance with workplace procedures	25	5	1	2	2
	PC2. identify the reasons for yarn breakage		8	2	4	2
	PC3. broken yarns or new ends are joined in accordance with workplace procedures.		4	1	2	1
	PC4. machines are reset for restart in accordance with workplace procedures after fault correction, style changes, and pattern changes.		8	2	4	2
	Total		25	6	12	7
		Weightage %		24%	48%	28%
5.TSC/N9001(Maintaining work area, tools and machines)	PC1. handle materials, machinery, equipment and tools with care and	50	4	1	2	1

Assessment Criteria

	use them in the correct way					
	PC2. use correct lifting and handling procedures		4	1	2	1
	PC3. use materials to minimize waste		3	1	1	1
	PC4. maintain a clean and hazard free working area		3	1	1	1
	PC5. maintain tools and equipment		4	2	1	1
	PC6. carry out running maintenance within agreed schedules		4	1	2	1
	PC7. carry out maintenance and/or cleaning within one's responsibility		4	1	2	1
	PC8. report unsafe equipment and other dangerous occurrences		4	1	2	1
	PC9. ensure that the correct machine guards are in place		3	1	1	1
	PC10. work in a comfortable position with the correct posture		3	1	1	1
	PC11. use cleaning equipment and methods appropriate for the work to be carried out		3	1	1	1
	PC12. dispose of waste safely in the designated location		4	1	2	1
	PC13. store cleaning equipment safely after use		3	1	1	1
	PC14. carry out cleaning according to schedules and limits of responsibility		4	1	2	1
	Total		50	15	21	14
		Weightage %		30%	42%	28%
6.TSC/N9002 (Working in a team)	PC1. be accountable to the own role in whole	50	4	2	1	1

Assessment Criteria

	process					
	PC2. perform all roles with full responsibility		4	2	1	1
	PC3. be effective and efficient at workplace		4	1	2	1
	PC4. properly communicate about company policies		4	1	1	2
	PC5. report all problems faced during the process		4	1	1	2
	PC6. talk politely with other team members and colleagues		4	1	1	2
	PC7. submit daily report of own performance		5	2	2	1
	PC8. adjust in different work situations		4	1	2	1
	PC9. give due importance to others' point of view		4	2	1	1
	PC10. avoid conflicting situations		4	2	1	1
	PC11. develop new ideas for work procedures		5	1	2	2
	PC12. improve upon the existing techniques to increase process efficiency		4	1	2	1
	Total		50	17	17	16
		Weightage %		34%	34%	32%
7.TSC/N9003 (Maintain health, safety and security at work place)	PC1. comply with health and safety related instructions applicable to the workplace	100	5	2	2	1
