Qualification Pack

TSC/N7402: Design and create a kalamkari painting

Description

The unit deals with necessary skills, knowledge and attributes required by a kalamkari artisan to select fabric, bleach, soften, design, dry, hand paint, and wash the fabric

Scope

This unit/task covers the following:

- Ensure proper treatment of fabric for kalamkari painting
- Undertake the process of kalamkari painting

Elements and Performance Criteria

Ensure proper treatment of fabric for kalamkari painting

To be competent, the user/individual on the job must be able to:

1. identify the different types of kalamkari paintings, Types: Hand printing/Srikalahasti style or block printing/ Machalipatnam style
2. select fabric as per different parameters for kalamkari paintings, Parameters: Thickness, colour, size, quality, material, etc.
3. carry out different processes for de-starching the fabric using water, Process: Washing, beating, etc
4. prepare a solution of buffalo/cow milk, water and astringents to stiffen the fabric before painting
Astringent: Terminalia chebula (myrobalan) powder
5. soak the fabric overnight in the prepared astringent-milk solution to set the tone of the fabric at different levels of kalamkari painting
6. dry treated fabric under the sun to fix the dye/color of the kalamkari painting after each level of dyeing

Undertake the process of kalamkari painting

To be competent, the user/individual on the job must be able to:

7. make designing pen/design block and painting brush with different materials and specifications for kalamkari paintings, Materials: Charcoal, tamarind twigs, date palm sticks, bamboo, wooden block, chisel, hammer, etc. Specifications: Tapered point of stick with a ball of wool as an ink reservoir
8. prepare black dye by mixing fermented jaggery with iron fillings or iron acetate solution for designing
9. create different types of kalamkari designs as per the market trend for, different kalamkari products, Types: Mythological characters, temples, flowers, animals, nature, etc. Products: Borders, blouses, sarees, suits, shawls, decorative pieces, etc.
10. apply mordant and keep for a certain time to fix the natural dye on the material after each level of dyeing, Mordant: Alum solution, Time: 24-36 hours
11. wash the excess mordant on the fabric under flowing water and dry it under sun at different levels of kalamkari paintings

Qualification Pack

12. bleach the fabric for overnight in cow/sheep dung solution and wash under flowing water
13. soak the fabric in buffalo milk to avoid smudging of dyes
14. identify and prepare different types of earthy colours/dyes for kalamkari, paintings from various natural sources, Sources: Various roots, leaves, plants, barks, mineral salts of iron, tin, copper, and alum
15. prepare or collect kalamkari colours from the market Colour preparation: Red colour from Indian madder or alginin bark/root, yellow from pomegranate peels and mango bark, indigo from leaves of Indigo feratinctoria, etc. combined with minerals like iron, and mordants like alum and boiled for 1-2 hours with water
16. wash the fabric with normal water and soak in alum water after application of every color/dye for fixation
17. dry the fabric and market/supply it for sale

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies and procedures followed in the handloom sector relevant to own employment and performance conditions
- KU2.** relevant health and safety requirements applicable in the work place
- KU3.** importance of following health, hygiene, safety and quality standards and the impact of non-compliance of the standards on consumers and the business
- KU4.** own job role and responsibilities and sources for information pertaining to employment terms, compensation, job role and responsibilities
- KU5.** relevant people and their responsibilities within the work area
- KU6.** various categories of people that one is required to communicate and coordinate within the organization
- KU7.** types of fabrics for kalamkari painting, Types: Cotton and silk
- KU8.** Various fabric processing methods before painting, Methods: Bleaching, softening, washing and sun drying
- KU9.** benefits of using astringents and mordants for processing the fabric
- KU10.** different kalamkari patterns and designs according to the market trends
- KU11.** methods for preparing natural colours
- KU12.** kalamkari painting techniques

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write local or English language for recording production, quality related information, numbering, and maintenance of related information and materials, etc
- GS2.** read to differentiate the various materials used in the process
- GS3.** read and correctly interpret own notes written in local or English language
- GS4.** communicate with co-workers appropriately

Qualification Pack

- GS5.** listen carefully
- GS6.** talk effectively to convey information succinctly and unequivocally
- GS7.** take decision with systematic course of actions and /or response
- GS8.** decide the material of the fabric for kalamkari designs
- GS9.** select the style of kalamkari painting
- GS10.** plan and organize own work in a way that all activities are completed in time and as per specifications
- GS11.** interpret work requirements and other designing related specifications correctly
- GS12.** deliver quality output and maintain long term business relationship with customers
- GS13.** determine timely correction of errors to prevent redoing of work
- GS14.** analyze the market needs and paint new and innovative designs

TSC/N9005: Maintain work area and tools in handloom sector

Description

This unit provides performance criteria, knowledge, understanding, skills and abilities required to organise/maintain work areas and activities to ensure tools used for warping are maintained as per norms

Scope

This unit/task covers the following:

- Maintain the work area, tools and machines

Elements and Performance Criteria

Maintain the work area, tools and machines

To be competent, the user/individual on the job must be able to:

1. Handle materials and tools safely and correctly
2. Use correct lifting and handling procedures
3. Use materials in a manner to minimize waste
4. Maintain a clean and hazard free working area
5. Maintain the tools and equipment used for warping
6. Carry out maintenance and/or cleaning within ones responsibility
7. Identify damaged tools and materials and take action according to the standards followed
8. Ensure that the correct tools and yarn required are in place
9. Work with the correct posture
10. Use cleaning equipment and methods appropriate for the work to be carried out
11. Dispose of waste safely in the designated location
12. Store cleaning equipment safely after use
13. Carry out cleaning according to schedule and limits of responsibility

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Personal hygiene
- KU2.** Safe working practices and Cooperative Society/NGO/SHG/cluster procedures
- KU3.** Limits of your own responsibility
- KU4.** Ways of resolving problems within the work area
- KU5.** The production process and the specific work activities that relate to the whole process
- KU6.** The importance of effective communication with colleagues
- KU7.** The lines of communication, authority and reporting procedures

Qualification Pack

- KU8.** The Cooperative Society/NGO/SHG/cluster rules, codes and guidelines (including time keeping)
- KU9.** The company's quality standards
- KU10.** The importance of complying with written instructions
- KU11.** Work instructions and specifications and interpret them accurately
- KU12.** Method to make use of the information detailed in specifications and instructions
- KU13.** Relation between work role and the overall manufacturing process
- KU14.** The importance of taking action when problems are identified
- KU15.** Different ways of minimising waste
- KU16.** Effects of contamination on products
- KU17.** Common faults and the methods to rectify them
- KU18.** Tools maintenance procedures
- KU19.** Hazards likely to be encountered when conducting routine maintenance
- KU20.** Different types of cleaning substances and their use
- KU21.** Safe working practices for cleaning and the methods of carrying them out

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language
- GS2.** Read and comprehend written instructions
- GS3.** Listen effectively and orally communicate information accurately
- GS4.** Ask for clarification and advice from others
- GS5.** Follow rule-based decision-making processes
- GS6.** Make decisions on a suitable course of action or response
- GS7.** Plan and organize your work to achieve targets and deadlines
- GS8.** Avoid absenteeism
- GS9.** Be punctual
- GS10.** Work in Discipline
- GS11.** Act objectively, rather than impulsively or emotionally when faced with difficult/stressful or emotional situations
- GS12.** Apply problem-solving approaches in different situations
- GS13.** Seek clarification on problems from others
- GS14.** Analyze data and activities
- GS15.** Pass on relevant information to others
- GS16.** Provide opinions on work in a detailed and constructive way
- GS17.** Apply balanced judgment to different situations

TSC/N9006: Working in a team in handloom sector

Description

This unit provides performance criteria, knowledge, understanding, skills and abilities required to working as part of team

Scope

This unit/task covers the following:

- Commitment and trust
- Communication
- Adaptability
- Creative freedom

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

1. Be accountable to one's own role in the whole process
2. Perform all roles with full responsibility
3. Be effective and efficient at workplace

Communication

To be competent, the user/individual on the job must be able to:

4. Properly communicate about workplace policies
5. Talk politely with other team members and colleagues
6. Submit daily report of own performance

Adaptability

To be competent, the user/individual on the job must be able to:

7. Adjust in different work situations
8. Give due importance to others' point of view
9. Avoid conflicting situations

Creative freedom

To be competent, the user/individual on the job must be able to:

10. Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Standard Operating Procedures (SOP) and regulations in the Cooperative Society/NGO/SHG
- KU2.** Procedure followed to get the final output in the Cooperative Society/NGO/SHG
- KU3.** Safe working practices to be adopted in the Cooperative Society/NGO/SHG

TSC/N9007: Maintain health, safety and security at work place in handloom sector

Description

This unit provides performance criteria, knowledge and understanding and skills and abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others

Scope

This unit/task covers the following:

- Comply with health, safety and security requirements at work
- Recognizing and addressing the hazards

Elements and Performance Criteria

Comply with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

1. Comply with health and safety related instructions applicable to the workplace
2. Use and maintain personal protective equipment as per protocol
3. Carry out own activities in line with approved guidelines and procedures
4. Maintain a healthy lifestyle and guard against dependency on in toxicants
5. Follow environment management system related procedures
6. Store materials and tools in line with manufacturers and Cooperative Society/NGO/SHG requirements
7. Safely handle and move waste and debris
8. Minimize health and safety risks to self and others due to own actions
9. Monitor the work place and work processes for potential risks and threats
10. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
11. Participate in mock drills/ evacuation procedures organized at the workplace
12. Undertake first aid, fire-fighting and emergency response training, if asked to do so
13. Take action based on instructions in the event of fire, emergencies or accidents
14. Follow Cooperative ociety/NGO/SHG procedures for evacuation when required

Recognizing and addressing the hazards

To be competent, the user/individual on the job must be able to:

15. Identify different kinds of possible hazards (environmental, personal, ergonomic and chemical) of the industry
16. Recognize other possible security issues existing in the workplace
17. Plan the safety techniques
18. Recognize different measures to curb the hazards

Qualification Pack

19. Implement the programs
20. Communicate the safety plans to everyone
21. Attach disciplinary rules with the implementation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety related practices applicable at the workplace
- KU2.** Potential hazards, risks and threats based on nature of operations
- KU3.** Cooperative Society/NGO/SHG procedures for safe handling of tools
- KU4.** Potential risks due to own actions and methods to minimize these
- KU5.** Environmental management system related procedures at the workplace
- KU6.** Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** Potential accidents and emergencies and response to these scenarios
- KU8.** Documentation formats
- KU9.** Details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** Occupational health and safety risks and methods
- KU11.** Personal protective equipment and method of use
- KU12.** Identification, handling and storage of hazardous substances
- KU13.** Proper disposal system for waste and by-products
- KU14.** Signage related to health and safety and their meaning
- KU15.** Importance of sound health, hygiene and good habits
- KU16.** Ill- effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language

NSQC Clearance Date	19/02/2016

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	<p>Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.</p>
Organisational Context	<p>Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.</p>
Technical Knowledge	<p>Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.</p>
Core Skills/ Generic Skills (GS)	<p>Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.</p>
Electives	<p>Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.</p>
Options	<p>Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.</p>
